EDUCATION

University of Pennsylvania

Philadelphia, PA

Master of Urban Spatial Analytics; GPA: 3.92/4.0

08/2025 - 05/2026

- Core Coursework: Statistical and analytics for Urban Data, Geospatial Data Science in Python, ML, Deep Learning
- Thesis Topic: Developing an Interactive Tool Mapping Rental Subsidy (Front end & Back end development)

Southeast University

Nanjing, China

Bachelor of Engineering in Urban and Rural Planning;

09/2020 - 06/2025

- Core Coursework: Infrastructure Planning, GIS in Urban Planning, C++ Programming, Urban Design
- Thesis Topic: Functional Repair and Spatial Quality Enhancement in Built-up Urban Areas

WORK EXPERIENCE

Southeast University

Nanjing, China

Research Assistant

10/2022 - 07/2025

Research Title: Individual Activity Pattern Analysis Using Mobile Signal Data: A case study in Nanjing

- Big data processing, data cleaning; Spatial and temporal data analysis, urban mobility analysis.
- Identifying individual activity patterns by using processed mobile data and POI data set.
- Constructed behavior activity chains, sequence alignment and performed behavior pattern recognition.

Key Contributions:

- Completed Python-based algorithm development, ArcGIS processing and data analysis.

Guangdong Provincial Architectural Design Institute

Guangzhou, China

Urban Planning Intern

07/2024 - 10/2024

- Conducted urban diagnostics for Shanwei City, applied Deep Learning model to process satellite image, analyze green spaces, building textures, land use ratios, and urban form.
- Real Estate development in coastal area planning. Participated in the full architectural design process for Huizhou Boluo Hospital, from site analysis to layout design and technical drawing preparation.

Key Contributions:

- Completed the Shanwei City Urban Diagnostic Report and Coastal Area Redevelopment Plan.

Opal Jewelry

Shanghai, China

Procurement Coordinator & Entrepreneur

11/2023 – present

- Leverage market insights and consumer behavior analysis to refine sales strategies.
- Long-term gem business in Japan, Hong Kong and China, balancing inventory control and supplier negotiation.

Key Contribution:

- Secured a stable supply chain and consistently achieved \$24,000 in monthly personal sales revenue.

SELECTED PROJECTS

For my full portfolio and selected project work, please visit:

→ jyxu48.github.io/JinyangXu_Website/

Interactive Mapping Platform for Rental Subsidy and Neighborhood Context

Big data, Housing equity, Front end, Back end, Public policy

- Built a national interactive mapping tool and platform for Housing Initiative at Penn.
- Integrating ACS, HUD data, Housing Choice Vouchers and multiple datasets to support housing equity analysis.
- Full workflow of big data processing and analysis.

Modeling Crime Risk Around Septa Bus Stops

Python, GIS, Transit Data, Public Safety, Planning, Data analysis

- Analyzed the relationship between transit ridership, neighborhood conditions, demographic, and reported crime patterns around SEPTA bus stops to support transit safety planning.

Satellite Deep Learning for Habitat Land-Cover Segmentation

Python, GIS, U-Net, Remote sensing, Semantic segmentation

- Developed a U-Net(Deep Learning model) semantic segmentation workflow to classify satellite imagery into land-cover categories relevant to Asian elephant habitat analysis.

SKILLS

Professional: Data analysis, Modeling, Data Engineering, Business Consulting, Planning, Design

Software& Programming Language: Python, R, Java Script, GIS, Google Engine, Adobe suite, Rhino, CAD

Interest: Hiking around the WORLD:, Climbing, Tennis, Jewelry Identification, Australian Opal Dealer, Piano

Language: English(fluent), Cantonese(native), Chinese(native)
